

Breastfeeding Support

Congratulations on your decision to breastfeed your baby. You have chosen to give your baby one of the most important gifts for a healthy beginning.

We realize that during the course of your breastfeeding relationship, questions may arise. Mercy Medical Center's Breastfeeding Support Network encourages you to call us with your questions or concerns. We can help answer your questions on common breastfeeding issues, and difficulties, understanding normal newborn behaviors, and the normal emotional transitioning to parenthood.

Please feel free to call us at:
Mercy Medical Center
Newborn Nursery
563-244-3908

A Breastfeeding Support Team Member will be available to answer your questions or direct you to other resources.

For more information on breastfeeding, contact La Leche League of Clinton. La Leche League provides accurate, current information and mother-to-mother support to nursing and expectant mothers wanting to find out more about breastfeeding.
